

DMS – Donors Message Service

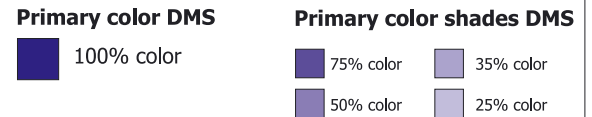

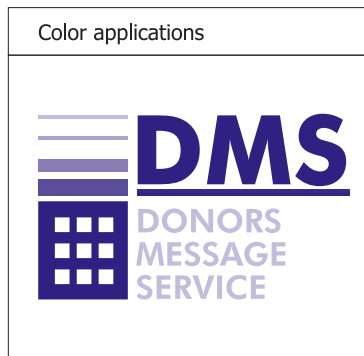

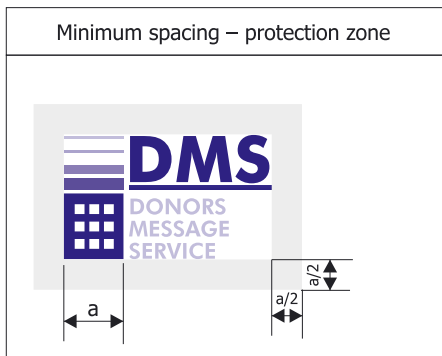

DMS – Donors Message Service identity standards ensure that the visual design elements of project logotype are applied correctly in every application in which DMS – Donors Message Service is identified. Published standards are essential for providing consistency in a project like DMS – Donors Message Service.

Use of this logotype by any other organization is not allowed without written permission from the DMS – service company or sub-license contractors.

DMS – Donors Message Service

This is the only written format how logo & project can be mentioned in text.

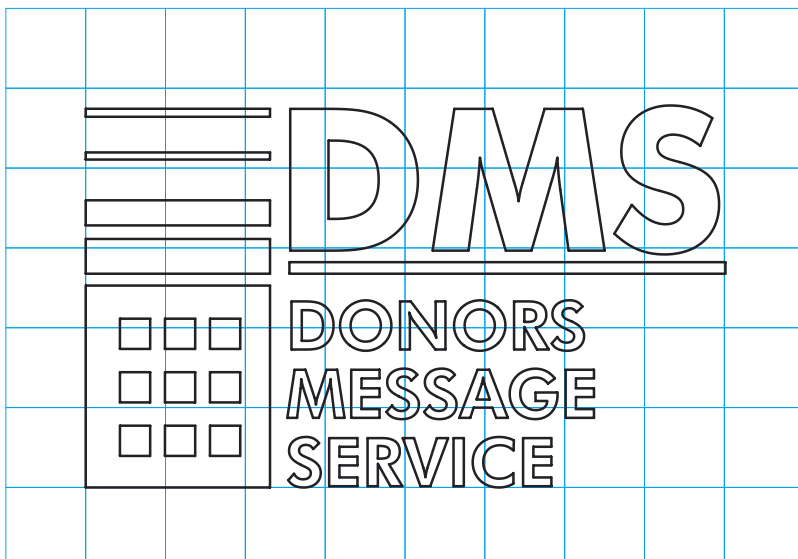

DMS - Donors Message Service

Color shades are applicable for any primary color
For logotype usage is possible to change primary color - for example:

Different color version samples

Logo setting in 10x7 grid for easier zooming
